Build a model illustrating either **ONE**
KEY QUESTION or **REFLECTION** you have!

Key remarks from open dialogue session

- **Monika Soñta**

Being a sparring partner of Robert during the 3D note taking was an experience which I can express in one word: **#unexpected**. I said more than I thought I would have said and I got a lot of insights on my project. Powerful

- **Robert Rasmussen**

I've been doing the 3D note taking a little bit more pushing just because we are trained facilitators. This in order to stress out and underline the key points of the technique.
