GROUND-UP EMERGING
STRONGER CONVERSATIONS
USING LEGO®SERIOUS PLAY®

The COVID-19 crisis has impacted many of us in Singapore. As citizens and permanent residents of Singapore, we share a concern – how can we recover from the disruption to our lives and prepare for the new normal? This ground-up citizen participation initiative stems out of our belief that every voice should be heard and **WE CARE!**

The love we have for our SG community, the stories we tell about who we are, what's happened to us, and what we need matter! Let's come together to share and co-create a resilient, stronger, post-COVID Singapore.

Let's emerge STRONGER Together!
